LIBEL BILL PROTEST

Pennsylvania Editors Urge Governor Pennypacker to Veto It.

ARGUMENTS FOR AND AGAINST

Charles Emory Smith Principal Spokesman Against Bill, and Alexander Simpson, Jr., and R. C. Dale In Favor of It—Some Legal Arguments.

Harrisburg, Pa., April 22. — Every important newspaper in Pennsylvania was represented at the hearing on the Grady-Salus libel bill by Governor Pennypacker in the hall of the house of representatives. Attorney General Carson sat with the governor throughout the hearing, but neither indicated what would be the governor's action on the measure. The governor said the bill was a very important one, and he was anxious to hear both sides, and he suggested that two representatives from each side be heard in order to save time. He also suggested that the opponents of the bill be heard first.

The opening speech was made by Charles Emory Smith, of the Philadelphia Press, who was presented by Thomas V. Cooper, of the Media American. At the outset of Mr. Smith's address Governor Pennypacker took exception to his use of the word "insolently" and suggested that it would be well for the speakers to omit strong adjectives. Mr. Smith accepted the suggestion, saying at the time that he spoke strongly because he felt strongly.

During Mr. Smith's argument that the bill did not include weekly newspapers the governor interrupted him to say that he thought it applied to all newspapers. Mr. Smith replied that he believed weekly newspapers were excluded from the provisions of the measure. Governor Pennypacker again interrupted Mr. Smith before he had proceeded much further to argue that the bill clearly applies to all newspapers, weekly or dailies.

Alexander Simpson, Jr., of Philadelphia, in urging the governor to sign the bill, said the highest court of Pennsylvania has declared that there is a necessity for a change in the laws governing newspapers and read from an opinion of the supreme court in the case of ex-Mayor Smith against the Philadelphia Times. He read several other opinions by the supreme court to prove his contention that the liberty of the press should be restrained. This bill, he declared, is designed to hinder the abuse of the license of the press by a very small minority of the newspapers of the state.

Richard C. Dale, of Philadelphia, also spoke in favor of the bill. He answered Mr. Smith's argument that the bill was loosely and carelessly drawn and endeavored to prove by quoting its various sections that it was on the contrary a measure very well put together and capable, in his opinion, of withstanding any attack that may be made upon it if it becomes a law.

Thomas V. Cooper made the closing argument against the bill, claiming the constitution had been violated in passing the bill, and that it did not properly receive the endorsement of both houses of the legislature.

When Mr. Cooper concluded the governor said that if any one of the speakers selected by the newspaper owners was a lawyer who desired to answer the legal arguments presented by Mr. Simpson and Mr. Dale he would be pleased to hear him.

Cyrus G. Derr, attorney for the Reading Eagle, was thereupon introduced. Mr. Derr dwelt upon the injudiciousness and unconstitutionality of the proposed law. He says a new feature is introduced into the libel law, by which negligence is made equivalent to malice and this feature he deemed most unwise. He argued that the bill discriminates against the newspapers of Pennsylvania in favor of those printed in other states and circulated in this state.

The governor concluded the hearing by the announcement: " I am obliged to you gentlemen for the help you have given me."

Mr. Smith then handed to the governor over one hundred letters from editors of newspapers in Pennsylvania who were unable to be present at the hearing, urging him to veto the bill.

Why the Y. M. C. A. Has Not Moved,

Some delay has been caused in the transfer of Irvin property from Mr. Crider to the Y. M. C. A., owing to the necessity of the Association getting a new charter. The Association was incorporated before the Act of Assembly was passed which regulates the incorporation of Associations and it was found necessary to get an up-to-date charter. This will take several weeks. The first installment of the subscriptions will be payable May 1st, and the Directors hope to be ready to get the property transferred by the time the first payment of the subscriptions is made. In the meantime the Association remains in the Pifer property.

Had a Narrow Escape.

Jacob S. Herman, once candidate for sheriff and now huxster at Lemont, had a narrow escape from drowning on Wednesday night. He was on his way home with his wagon when he missed the bridge and drove into Spring creek. The accident occurred along the pike near Mrs. Lena Wasson's. The creek being unusual high Jake was in a desperate plight. A crowd soon gathered and rescued him and the team, but he was kept above water by the use of a rope that was thrown to him while his team was being extricated.

MINERS ORDERED BACK

Executive Committee of Union Directs Them to Resume Work.

ARBTRATION COMMITTEE NAMED

All Mine Workers Instructed to Continue Work and, and Troubles Will Be Adjusted As Prescribed By Strike Commission.

Wilkesbarre, Pa., April 22.—The miners' executive boards held two lengthy sessions yesterday. The proceedings were secret, but it is known that the grievances in three districts were thoroughly discussed and the action to be taken was left to a committee of the three district presidents, Nichols, Fahey and Dettrey, and secretaries and President Mitchell, who met last night to decide upon recommendations to be acted upon at the final meeting.

When the meeting adjourned President Mitchell said he had nothing further to add more than that they expect the coal companies to appoint a similar conciliation committee, so that the grievances complained of can be adjusted as soon as possible.

President Mitchell appointed Rev. T. R. Watkins, of Scranton, to act as a national organizer for the United Mine Workers of America. He is the only miner preacher in the anthracite coal region.

The following statement, signed by President Mitchell and the district presidents, was issued:

"To all members of the United Mine Workers of America in the anthracite coal fields:

"Gentlemen—The executive boards of Districts Nos. 1, 7 and 9, having under consideration the situation of the anthracite region have after careful consideration concluded:

"That the best interests of our organization will be conserved by an immediate resumption of work at all the mines where strikes or lockouts are now in force, and the reference of all matter of dispute to the joint board of conciliation provided for in the award of the anthracite coal strike commission. In order that adjustments may be facilitated, we have selected the presidents of Districts Nos. 1, 7 and 9 to act as our representatives on the board of conciliation, and we have decided to notify the presidents of various coal carrying railroads that we are prepared to meet the representatives of the coal companies at the earliest possible date for the purpose of considering and adjusting all questions at issue growing out of the interpretation or application of the award. In pursuance of this action all mine workers are advised and instructed to resume work immediately, and to continue all work, in order that the differences may be adjusted in the manner as prescribed by the strike commission."

Mr. Mitchell expects to return to his headquarters at Indianapolis this evening. He may come back to Wilkesbarre if the board of conciliation is unable to smoothe out the present dispute and irritation.

WRIGHT SPEAKS OF LOCK OUT

Refuses to State Whether It is a Violation of Commission's Award.

Washington, April 22.—Carroll D. Wright, commissioner of labor, who was a member of the recent anthracite coal strike commission and its recorder, when asked whether the lockout instituted by the mine operators in Pennsylvania was a contravention of the terms of the commission's award, said:

"I have not as yet thoroughly studied the situation and do not care to express my opinion on the matter at this time without accurate knowledge of the situation. It is a matter, I think, that should require careful deliberation before an opinion should be expressed. It is not wise to jump at hasty conclusions. There seems to be considerable difference of opinion on the matter at the mines, and there perhaps might be different opinions among people here."

Charged With Robbing the Mails.

New York, April 22.—After more than 1,000 complaints from publishing houses that envelopes containing small coins have been opened and the money extracted in transit through the mails, postoffice inspectors arrested Israel Goldberg, a mail sorter in the general postoffice. It is alleged that they found in his possession the contents of three test letters, including marked coins taken from them, and a large quantity of postage stamps. Goldberg was arraigned before a commissioner and held for examination.

UNITED IN WEDLOCK.

Charles L. Stover, of Altoona, Marries Miss Anna M. Morrison of Unionville.

Wednesday at High noon the home of Mr, and Mrs. George Morrison at Unionville was the scene of a very pretty nuptial event. The occasion was the giving inmarriage of their daughter, Anna Margaret, to Mr. Charles Leckie Stover of Altoona.

The cermony was performed by Rev. R. H. Wharton, of Milesburg, in the presence of about seventy-five invited guests.

The interior decorations of the home were very beautiful and appropriate. The bridal party were accompanied to the altar by Miss Mame Strunk, of Bellefonte, as bridesmaid, and Mr. James Pratt, of Unionville, as best man, and to the music of Lohengrin's wedding march as capably rendered by Miss Alice Henehey.

The groom is a worthy and industrious young man and is employed as a clerk in a large store in Altoona and is a son of George Stover.

The bride is a very pretty and accomplished young lady and is in every way fitted to make a worthy helpmate through life.

After the cermony a most elaborate wedding dinner was served to all present after which Mr. and Mrs. Stover departed on a wedding tour to western cities. They will make their future home in Altoona.

An Explosion Narrowly Averted.

Wednesday evening about half past eleven o'clock as Isaac Thomas Jr., was in the vicinity of the REPUBLICAN office on his way home he heard the sound of escaping steam and on investigation found that it came from the boiler room of the Bellefonte Shirt factory. There were none of the employees of the factory about at the time. The building where the engine and boiler stands is separated from the main building. Mr. Thomas perceived that something was wrong and telephoned for Officer Amos Mullen who was soon on the scene and together they forced an entrance to the boiler room. They were not a moment to soon either, for the indicator showed that there was 80 pounds of steam on and not a pint of water in the boiler. In ten minutes or perhaps less there would have been an explosion that would have done considerable damage had it not been for the timely appearance of Messrs Thomas and Mullen. The fire was drawn from under the boiler and Mr S. D. Ray, the proprietor, was sent for and things were put in ship-shape order again.

An Excellent Record.

Edward J. Hill, of this place, who is a gunner on the "Indiana" has sent home a bulletin showing the excellent record made on the "Indiana" by its gunners. It says "Hill and Riedel fired two shots in 2 minutes and 22 seconds from the time the "commence firing" whistle blew. None of the gun pointers had ever fired 13 inch guns before. All of them had been trained with mechanical targets about one and one half months only.

Twenty-eight of the Indiana's 6 inch and 6 pounder gun pointers average about 23 years of age, none of them have been in the service more than three years, and they all made from 50 per cent to 90 per cent, and were trained almost exclusively at mechanical targets for about one and one half months.

The target practice happened off Pensacola, Florida, on April 2nd and was participated in by the "Indiana" and the "Illinois."

Co. B, Preparing for Inspection.

The members of Co. B, are busy at work getting ready for their Spring inspection which takes place Thursday evening April 30th. The new uniforms have all arrived and with the nightly drills that are taking place they will no doubt present a fine appearance and make an excellent showing when they come before the Brigade inspecting officer, Major Jefferies.

On next Friday evening there will be a preliminary inspection at which Lieut. Col. John S. Bare, of Huntingdon, will be present and look the boys over.

Company B has always taken a high rank in the regiment and if hard work of officers and men counts for anything they will be found close to the top this time.

—Joseph Undercoffer, assistant baggage master for the P. R. R., at this place, appeared Thursday resplendent in a brand new uniform. Joe. made a nice appearance and was the target for all eyes especially the fair sex. It is a pity he is married, girls.

RUMORS ABOUT KING

Report That Edward VII Was Ill Proves Unfounded.

LEFT MALTA IN GOOD HEALTH

Streets of Rome Being Richly Decorated In Honor of His Majesty. His Visit to Pope Leo Still Uncertain.

London, April 22.—An investigation of the reports circulated in the United States by a news agency that as the result of the alarming state of King Edward's health he has been ordered to take four days' rest at Naples before going to Rome, and that the program for his majesty's entertainment at Rome had been curtailed shows them to be unfounded. The king left Malta in good health, and there has been no change in his plans or curtailment of the Rome program.

Will Not Land at Naples.

Rome, April 22.—Nothing is known at the British embassy here or in official circles concerning the report that the health of King Edward is unsatisfactory.

His majesty is expected to arrive at Naples at a late hour today. He will not land there, nor will he see Sir Francis Bertie, the British ambassador to Italy, until tomorrow.

With regard to the report that the ceremonies attending King Edward's arrival in Rome will be curtailed, it is impossible to curtail them, as no program has yet been established; knowledge of King Edward's intentions and desires is awaited before doing so. For the same reason all arrangements announced regarding his majesty's visit to the Pope are mere fabrications. The British embassy and the Vatican as yet know nothing at all in this respect.

The archbishop of Malta has informed the Vatican that he did his best to represent the advisability of a meeting between the sovereign of Great Britain and the head of Catholicism, adding that he received no assurances that this meeting would or would not occur.

In the meantime preparations to receive King Edward are progressing in various directions. The streets his majesty is expected to traverse are being richly decorated with red Venetian masts, garlands of laurel and myrtle and large vases containing fruit and flower trees 30 feet high.

LOUBET GUEST OF TRIBESMEN

French President Witnessed Spectacle of Barbaric Splendor In Algeria.

El Kreider, Algeria, April 22—President Loubet participated in a veritable Durbar of the nomadic tribesmen of the desert. The tribesmen gathered in thousands from all parts of Southern Algeria for a ceremony of Oriental splendor. M. Loubet entered the desert country, with its sparse and burned vegetation, where the stretches of sand and hot sun produced the curious effect of mirage. The ceremony was held on a vast plateau. Over 8,000 men participated in the gathering.

A superb tent of camel hair fabrics and Arab tapestries had been erected for President Loubet. As each tribe passed in review its chief dismounted and paid homage to the president of France, who distributed decorations to the principal leaders. After the review came a native fantasia, or exhibition of sports. There were feats of horsemanship and much burning of gunpowder, the exhibition ending by a charge of all the native cavalry, which wheeled across the plain and charged toward the station occupied by the president, pulling up their horses within 300 yards of his position. A mimic combat followed, representing the attack upon and capture of a caravan by a desert tribe.

The ceremonies were brought to a conclusion by a grand "diffa," or Arab banquet, given by the chiefs in honor of M. Loubet. The menu, which was printed in Arabic and French, included such desert delicacies as roast gazelle, "couscous" and camel's milk. The entertainment presented a spectacle of barbaric splendor such as seldom has been seen by European eyes.

Woman Robbed of $3,000.

Mount Vernon, N. Y., April 22.—Two young men, well dressed and supposed to be Italians, entered the home of Guisseppe Galantuono, a workingman, brutally assaulted his wife and robbed her of $3,000 in cash, which she was carrying in the bosom of her dress. The robbers escaped. The woman was found unconscious, with her face terribly beaten. When her husband was summoned from his work and found that the savings of a lifetime were missing, he attempted to cut his throat and was prevented only after a struggle.

WON'T DELAY RACES

Lipton Will Work Night and Day to Refit Shamrock III.

NOTIFIES N. Y. YACHT CLUB

Sir Thomas Sees Nothing in Recent Accident to Lessen His Confidence In the Cup Challenger — Will Be Ready For Trial Races In a Month.

Weymouth, Eng., April 20—The two Shamrocks left here for Southampton. The challenger was towed by the Erin. Sir Thomas Lipton was interviewed before the departure of the yachts. Describing the accident of last week, he said:

"When the challenger lost her mast there were certainly six feet of water over her lee deck. My first impression when the mast went was that the boat was sinking. Later when I was able to scramble up on deck, I found everything gone and the boats out doing rescue work. I never saw the seaman Collier in the water."

Questioned as to his future course, he said he meant to work day and night to get the yacht refitted in time for further trials before sailing for New York. His desire was to avoid a postponement of the races.

Mr. Ward, Designer Fife and Captain Wringe have had a conference and have promised to put the challenger in racing trim again in three weeks. It will be a big job. Designer Fife has condemned the boom, gaff, mast and topsail spars of the yacht, and they will all be removed, as will the sails.

The decision against a postponement of the races was reached after a long consultation, and Sir Thomas sent the following cablegram to G. A. Carmack, secretary of the New York Yacht Club:

"I am pleased to inform you that the damage done to the Shamrock III. will be righted in three or four weeks. There will be no necessity of considering the question of a postponement. Please communicate this to your committee and also convey my warmest thanks for their expressions of sympathy."

Sir Thomas said he saw nothing in the recent accident to lessen the great confidence he felt in the Shamrock III. If racing yachts are to be built, he said, there must be some risk. If we built a vessel as safe as a liner we might as well keep her at home for any chance she would have of winning the cup.

Designer Fife took the same view; he has never appeared so confident as he is now. Mr. Ward said he was surprised and disappointed at the accident. The screws were the same as those used on the Shamrock II. He explained that every precaution had been taken; over 200 tests had been made of the fittings, and he had the utmost confidence in every detail of this part of the equipment.

The body of Collier has not been recovered. Sir Thomas Lipton has offered a reward for its recovery and has made provision for Collier's widow and child.

It is believed that the next trial races will take place on the Clyde in a month's time.

Minister Stricken While Preaching.

Philadelphia, April 20. — The Rev. Dr. Francis A. Horton, well known in the Presbyterian church, pastor of the Temple Presbyterian Church, this city, was stricken with apoplexy while preaching last night and died shortly after being removed from the pulpit. Dr. Horton was delivering a special sermon to young men, and had been speaking about 10 minutes, when his words became incoherent and he tottered. Several worshippers went to his assistance and he was removed to his home, where he died without regaining consciousness. Dr. Horton was 53 years of age, and before coming to this city held charges at Oakland, Cal.; Cleveland, O., and Providence, R. I.

HUNTINGDON PRESBYTERY.

Some Vigorous Opposition to the proposed Change in Confession of Faith.

The Huntingdon presbytery in session at Reedsville Tuesday passed upon the call of Rev. C. S. Bowman to the church at Hollidaysburg, and he was given permission to labor within the bounds of the presbytery until the June meeting, when provisions will be made for his installation. The case of James Heron, who has been called to the Port Royal church was similarly treated ; and it was ordered that the installation of the Rev. William B. Greenshields as pastor of the West Kishacoquilas churches take place April 29 at 10 a. m. at Belleville church.

The overtures on the confession of faith were taken up. The first overture being introductory the question was upon the adoption of the second which Dr. Freeman moved that the presbytery answer in the affirmative

Dr. Laurie made a vigorous speech against the motion. He declared that no one could father these overtures. He said they are not in harmony with the the Scriptures. Dr. Freeman denied that the members of the committee refused to father these overtures. He insisted that the explanation of these overtures of the Chapter on the Decrees was just the explanation which we all have been accustomed to give. Rev. William Gibb and Rev. S. T. Lewis spoke in favor of the motion, both having been members of the last general assembly and both denied that the members of the committee refused to father these overtures. Revs. R. M. Campbell and J. S. Kelly, of Williamsburg, agreed that the confession as it now stands was a better statement of the truth than it would be with the proposed changes. Rev. J. H. Denniston said that Dr. Warfield was selected to point out the weak places in the proposed revision and the best he could do was to attack the English diction in which the charges were dressed. Dr. William M. Jack critized the overture declaring that it attemped to explain things that could not be explained and that it was not a proper time when there was a downgrade of thought to undertake such work. Rev. R. P. Miller declared that the overture did not profess to explain things that could not be explained, but was simply a statement that two doctrines were in harmony.

Dr. Mathers criticised the statement that there was such unity in the general assemily. He characterized the movement as an effort to satisfy the demands of the world. In the endeavor to satisfy these demands we were in danger of sacrificing the truth. He referred to the splendid missionary work our denomination was doing in so many lands as an evidence that no change in the confession was needed.

Robert Klump Assalted.

Robert Klump met with a startling encounter Friday night, which has caused quite a sensation, and occurring as it did upon one of our principal streets, has produced a feeling of unrest to those who are compelled to be out after dark. There is evidently some villian at large, who should be apprehended and confined where he could not terrorized an entire community. It appears that Robert was quietly walking along the street, when some one stealthfully approached from behind, and with out warning, caught him by the throat. A struggle immediately commenced, but the assailant tightened his grip to such a degree, that it was impossible to make an outcry, or give any alarm whatever. Singularly enough, the streets seemed to be deserted, although the hour was not late.

The struggle lasted but a few moments, when from some unexplainable reason, the would be assassin, suddenly relaxed his hold and ran away. Robert went home as quickly as possible, very much used up, but not seriously hurt, his collar was torn off, but nothing of value taken from him. We hope an episode of like character will never occur upon the public streets in our orderly town. And to prevent it, Burgess Walker should notify his policemen to be more vigilant in the future. For fear that our readers might be mislead by the above, will explain that Robt. Klump, is nothing more than "Bob" the valuable dog belonging to Dr. Geo. B. Klump, and some rascal stole his collar Friday night, by cutting it from his neck.

ROBBED THE GRAVE.

A startling incident, is narrated by John Oliver of Philadelphia, as follows: "I was in an awful condition. My skin was almost yellew, eyes sunken, tongue coated, pain continually in back and sides, no appetite, growing weaker day by day. Three physicians had given me up. Then I was advised to use Electric Bitters; to my great joy, the first bottle made a decided improvement. I continued their use for three weeks, and am now a well man. I know they robbed the grave of another victim." No one should fail to try them. Only 50 cents, guaranteed to give satisfaction at Green's Pharmacy.

Clings to Life.

Persons who own a century plant, which they may be nursing with care, will be interested in this story of the vital persistency of Agave Americana, for so the common century plant is called. In the autumn of 1890 Mr. Myers, of Riverside, Cal., planted on his grounds a youn Agave Americana. By 1900 it had become so inconveniently large that its removal was desirable and in March, its leaves having just been sawed off, it was dug up, and, by the aid of horses, drawn aside, where it was left to become dry and be burned. The next spring it was still living, but the fibrous roots were dry and were burned off. The trunk itself showed no noticeable shrinkage. In May, 1902, it was observed to be putting forth a flowering scape. The plant had now lain two years on the dry ground without any radical connection with it, and consequently without receiving any nutriment or water. The growth of the flower stem was rapid, averaging in its early period 6 inches a day. Eventually it attained a height of about 15 feet, flowered freely and produced fruit. In November of the same year, the energy of the plant being still inexhausted, it produced three small flowering stems.

Public Library for Williamsport.

James V. Brown, a wealthy lumberman, will give to Williamsport a $150,000 public library, to be known as the James V. Brown Memorial Library. It is announced that work on the structure will be started in the early summer.

The building will occupy the site of the Henry Brown homestead, on Fourth street, near Market, a property with a frontage of 104 feet on Fourth street and extending back 208 feet. The new library will be directly across the street from the recently dedicated Howard Memorial Scottish Rite Cathedral.

The dimensions of the proposed librabrary building are 75 by 150 feet. The second floor will be used as an art gallery. The arch of the doorway will contain a bust of the donor, modeled and carved by John J. Boyle.

Music for Bucknell Commencement

The Allentown band, Martin Klingler, leader, formerly connected with the Fourth regiment, N. G. P., has been engaged for the fifty-third annual commencement of Bucknell university, to be held at Lewisburg, June 22, 23 and 24. The band consists of forty men and is one of the finest organizations of its kind in the country. The twilight concerts will be given as usual, and for this occasion the band is preparing an especially attractive program.

May be Located at Cove.

What was to have been the largest railroad classification yards, at Enola, a short distance from Harrisburg, and on which nearly a half million dollars has already been expended, may be abandoned and the proposed yards located at Cove station, on the middle division of the Pennsylvania railroad. Why this big project is to be abandoned after the expenditure of so much money is known only to the officials.

Smoke in the Lungs.

Many of the ablest men in the medical profession in this country and in other parts of the world are devotees of Our Lady Nicotine, and are not in the least inclined to join an anti-tobacco crusade. But all of them are one mind as to the injury to health caused by taking smoke into the lungs, whether the fumes of cigar, pipe or cigarette. Moderate indulgence in the use of the dreamy weed is not likely to shorten life, unless in exceptionly cases of "the tobacco heart." At least, so the doctors say; and in the long list of centenarians of renown there have been many ardent worshippers of the pipe.

But the persistent custom of inhaling the vapors of Sir Walter Raleigh's favorite plant works harm in time. The breathing apparatus is not adapted to the absorbing in the lungs of the essential oil which has so much to do with the flavor and pungency of tobacco. Inhalers of smoke rarely attain a ripe old age. Such pleasures and consolations as may attend the consumption of tobacco can be enjoyed without the indulging of the edleterious practice of filling the pulmonary tract with thick, strong, fuliginous clouds. Let inhalers heed the warnings of experienced members of the medical profession.

A Serious Crime.

The law books tell us that on the Isle of Man it is a less a crime to steal a horse than a chicken, the reason being that the latter may be easily concealed while the thief would find it impossible to get off the island with the larger animal. To steal a horse in Texas has always been a capital offense, owning to the facilities for galloping off on the stolen horse on its boundless pairies. Just now, the worst crime a man can commit in the extreme western Statses is to destroy hay, worth almost its weight in gold. Consequently, it will doubtless go hard with the South Dakota man now in jail at Belle Fourche accused of firing hay-stacks. If he had contented himself with burning a barn or even a house, he might have escaped with a penitentiary sentence. But a haystack—and in western Dakota—and just now—nothing short of capital punishment will fit this crime in a winter like he past on the range.

United Labor Carnival.

Unique in the history of the labor movement of the United States is the plan now under completion by the labor organizations of Pittsburg for the raising of money to form the nucleus of a building fund to be used in the erection of a Labor Temple there. The Building Trades Council of Pittsburg, Allegheny and vicinity is arranging for a mammoth celebration to be known as the United Labor Carnival, which, it is said, will be the greatest event of its kind ever held. Arrangements have been made with the Morris & Berger Company to bring to Pittsburg the most elaborate combination of attractions that was ever gathered together. In addition it is proposed to have a large number of distinguished visitors and speakers and to make the event one of a national character. Opening day will be May 30.

Will Have to Act on Their Resignations.

Nineteen of the twenty-one members of the official board of Mulberry street M. E. church, of Williamsport, have handed their resignations to Rev. W. A. Houck, the new pastor of the church, but he is not the person, he says, to act on them. "That is a matter for the quarterly conference and, as the official board of a Methodist church constitutes the quarterly conference, with the presiding elder serving in the capacity of chairman, the gentlemen desiring to be relieved from their official duties in this instance, will be under the necessity of moving and acting upon their own resignations."

A Relic of Bound-boy Days.

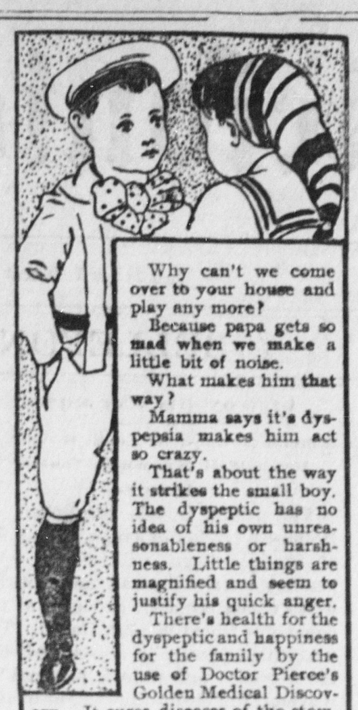
In a pile of scrap iron sold at the public sale of Henry Winn, deceased, in Liberty Valley, Juniata county, was found what was known in the eighteenth century as a "bound-boy's" collar, which was worn by all boys who were indentured or bound out in olden times and if they ran away they could be easily identified and returned to their master. This collar bore the following inscription, "Edward Thatcher, Tuscarora Valley, 1781," and no doubt this collar was worn by boys who were bound out to Mr. Thatcher. It looks like an "implement of torture," having prongs extending out about three inches on either side.

Kindergarten Union Convention.

Kindergarten work as taught by the various schools throughout the United States was exemplified Wednesday by 300 delegates who met in the lecture room of Carnegie Hall, Pittsburg, to listen to the reports of the various delegates. The reports showed that cities in all parts of the country are engaged in this great movement. The meeting Wednesday was the opening of the tenth annual convention of the International Kindergarten Union.

A THOUGHTFUL MAN.

M. M. Austin of Winchester, Ind. knew what to do in the hour of need. His wife had such an unusual case of stomach and liver trouble, physicians could not help her. He thought of and tried Dr. King's New Life Pills and she got relief at once and was finally cured. Only 25c, at Green's Pharmacy.



Why can't we come over to your house and play any more?

Because papa gets so mad when we make a little bit of noise.

What makes him that way?

Mamma says it's dyspepsia makes him act so crazy.

That's about the way it strikes the small boy. The dyspeptic has no idea of his own unreasonableness or harshness. Little things are magnified and seem to justify his quick anger.

There's health for the dyspeptic and happiness for the family by the use of Doctor Pierce's Golden Medical Discovery. It cures diseases of the stomach and other organs of digestion and nutrition, and restores perfect health and strength, by enabling the perfect digestion and assimilation of food.

"I have taken one bottle of Dr. Pierce's Golden Medical Discovery for indigestion and liver complaint," writes Mr. C. M. Wilson, of Yadkin College, Davidson Co., N. C. "Have had no bad spells since I commenced taking your medicine—in fact, have not felt like the same man. Before I took the 'Golden Medical Discovery' I could not eat anything without awful distress, but now I can eat anything I wish without having unpleasant feelings."

Dr. Pierce's Pleasant Pellets cleanse and regulate the bowels.

A Sad Tale.

There was a little man, and he had a little can,
And a quart or more of gasoline was in it;
And upon the kitchen fire, to make it burn still higher,
He poured the oil, and in less than a quarter of a minute,
There was no little can, there was no little man—
The tale's too sad—I can't go on—Oh! why did I begin it?

Arbor Day Observed.

The scholars at the Brick school house observed Arbor Day in a proper manner by planting two trees in their beautiful school ground—one being a monumental sugar maple, by the Class of 1903, and dedicated to the memory of Miss Lulu Walters, a member of that class whose sad and sudden death occurred recently.

A broad-leafed birch was planted by the Class of 1904. In the planting of these trees each scholar takes part, by depositing a little earth around the roots until the hole is entirely filled.

D. F. Fortney, Esq., presented the trees to the school and was present when planted. Mr. Fortney has selected most of the trees which have been planted in those grounds, and they are all of choice varieties. Some time in the near future the Brick school will be surrounded by a beautiful grove.

First Engine Repaired at Oak Grove

The first engine to be overhauled in the new shops at Oak Grove was taken into the general erecting shop Thursday for general repairs, says the Jersey Shore correspondent of the Williamsport Sun. It was engine No, 374, one of the little yard engines. A general change has been made upon the interior of this department, nearly all of the machines which has been stationed near the side of the building being moved nearer the centre, where they can be reached by the large traveling cranes. Work has commenced in earnest at all the big shops now. E. A. Walton, has removed his office from Corning to Oak Grove, where he will superintend the new work in person. Miss Nellie Epley, stenographer to Mr Walton, is also stationed there.

Meeting at Wilkesbarre.

The ninth biennial conference American committee associated with the World's Young Woman's Christain Association opened in Wilkesbarre Wednesday afternoon. The first delegtes to arrive there at noon Tuesday were from Des Moines, Iowa. The Ohio delegation reached there later in the afternoon and a large delegation from Pittsburg arrived some time during the night. The convention was one of the most important gatherings of the association and the 300 hundred delegates all reported by noon Wednesday.

Carnegie's Offer to Blanchard Baptists.

A new and handsome vocalion organ worth $475 has been placed in the Baptist church at Eagleville of which Rev. G. Stanley West is pastor. Andrew Carnegie the millionaire who is so generous with his money has made an offer to pay $225 towards the payment of the cost of the organ if the congregation raise the balance.

FIST FIGHT IN COURT

Lawyers in Millionaire Chase Case Come to Blows.

HAS BEEN DECLARED INSANE

When Young Chase Arrived at Lafayette, Ind., He Declared: "I Am Not Crazy," and a Riot Almost Ensued. In Custody of the Court.

Lafayette, Ind., April 17—There was a fist fight in the circuit court room between Attorneys Dan Simms, representing Fred Chase, father of Moses Fowler Chase, and A. L. Kumler, representing Mr. and Mrs. Charles Duhme, of Cincinnati, who are struggling for the possession of the young Chase, the millionaire. The attorneys had met for a conference with the judge as to what should be done with Moses Fowler Chase, pending the hearing of the guardianship case. Attorney Kumler denounced the attorneys on the other side and also Chase's father, and declared that Moses Fowler Chase had been brought to Indiana from France by force and fraud.

He had further asserted that the unfortunate young man was put on exhibition at the law offices of Chase's attorneys, when ex-Judge E. P. Hammond shouted: "That's an absolute falsehood."

Attorney Simms jumped from his seat and approached Kumler, who tried to ward him off. Simms then landed a fierce right-hand swing on Kumler's jaw, and followed it with his left. Both blows landed, Kumler protecting himself as best he could.

The court room was crowded, and lawyers, court officials and spectators sprang toward the combatants and dragged them apart. The judge fined Simms $25 for striking the first blow, and this quieted matters.

Simms then apologized and Kumler asked the court to remit the fine, as he said he felt sure that Simms had struck in a moment of temper. The court remitted the fine, and directed that Moses Fowler Chase remain in the court's jurisdiction, with the understanding that Mr. and Mrs. Duhme, his aunt and uncle, are not to interfere with him. They have the privilege of applying to the court for authority to see him, however.

The guardianship application served on the young millionaire is returnable April 27, for which day the case is set. Detective William Weinhart was placed on guard at the offices of Chase's attorneys, and barred out everybody but the sheriff. Neither Mr. nor Mrs. Duhme was at the train, as they wished to avoid a scene, but Duhme's private secretary was there to look after their interests.

Young Chase arrived here in company with his father. A big detail of policemen was at the station. Young Chase declared piteously: "I am just as sane as any one; I am not crazy."

His father held one arm tightly and a lawyer held the other, as they hurried the young man to a carriage. "Let me go, let me go; I'm not crazy," the young man pleaded. He recognized several old friends in the crowd and tried to stretch out his hands to them. There was almost a riot when two attorneys tried to speak to young Chase. Attorney Kumler pushed the crowd from behind and said: "Moses, your aunt is here."

"Take me to my aunt; take me to my aunt," pleaded Moses.

Doctors M. M. Lacy, E. C. Davidson and W. W. Vinnedge, of Lafayette, and Dr. C. C. Burr, of Flint, Mich., examined young Chase and pronounced him insane. They declared that his answers to the most simple questions were incoherent, although he appeared perfectly sane when taken off the train.

Aged Sisters Burned to Death.

Tomaha, Wis., April 17.—Fire destroyed the home of and burned to death Misses Phoebe and Libbie Heeley at Bear Creek, six miles south of this place. The two sisters were 75 and 86 years of age respectively. They lived alone on a large farm, which they owned. A high wind fanned the flames, and before assistance arrived all was destroyed. It was thought they had a large sum of money in the house and that they were robbed and murdered and the fire started to cover the traces of the crime. An investigation will be held.

Thirteen Blooded Horses Burned.

Wellsburg, W. Va., April 17.—Two large stables belonging to Joseph B. Vandergrift were destroyed by fire here, entailing a loss of $75,000. Thirteen of his blooded horses were burned, including his prize driving horse, Edna Cook, valued at $5,000. The fire was undoubtedly of incendiary origin. When the flames were discovered two men were seen running from the burning buildings. They disappeared in the woods nearby before they could be apprehended.

A Great Sensation.

There was a big sensation in Leesville, Ind. When W. H. Brown of that place, who was expected to die, had his life saved by Dr. King's New Discovery for Consumption. He writes: "I endured insufferable agonies from Asthma, but your New Discovery gave me immediate relief and soon thereafter effected a complete cure." Similar cures of Consumption, Pneumonia, Bronchitis and Grip are numerous. It's the peerless remedy for all throat and lung troubles. PRESIDENT ENJOYS OUTING

Mr. Roosevelt Leaves Fort Yellowstone to Visit the Geysers.

Cinnabar, Mont., April 17. — President Roosevelt came into Fort Yellowstone appearing in splendid condition and enthusiastic over the holiday he has had. Secretary Loeb met him at Major Pitcher's headquarters, and the two transacted some routine business, the first the president has done with his secretary since he went into the park. After his return from his visit to the president, Secretary Loeb issued the following statement:

"Major Pitcher reports that the president and his party have returned from their eight days' horseback trip in the north of the park and along the Yellowstone. The party consisted of the president, Major Pitcher, John Burroughs, with an orderly; the scouts and the packers with the mule train. All of the party are in excellent health, and not an accident of any kind resulted. On entering the park the president informed Major Pitcher that he would not, under any circumstances, fire a shot at anything while in the park, and he took neither rifle nor shotgun with him. The party had some good fishing, and the president and Mr. Burroughs spent a large part of their time in following and watching at close quarters the great herds of game, chiefly elk, but also mountain sheep, deer and antelope. The party started today for the interior of the park, to visit the geysers and perhaps the falls of the Yellowstone. They will go in sleighs, on horseback, or on skis, according to the condition of the snow."

A PREMATURE EXPLOSION

Four Miners Injured In Pennsylvania Coal Company's Shaft.

Wilkesbarre, Pa., April 17.—A premature explosion took place in No. 5 shaft in the Pennsylvania Coal Company's mine near Inkerman that caused some little excitement for a time when it became known that four miners had been seriously hurt.

The injured are: Michael Kafacumski, arm broken, head lacerated; Michael Cacuski, seriously injured about the head; Michael Carushuiski, internal injuries; Harry Draggon, both arms broken and skull fractured.

The men had been engaged in blasting rock, a charge had been set off and failed to explode within the proper time. The men returned to investigate the cause, and when they got within a short distance of the place an explosion took place, hurling them many feet away. The report was heard all over the shaft, and a number of miners and laborers rushed to the spot and rescued the injured as quickly as possible. They were brought to the surface and sent to the Pittston hospital in an ambulance.

Six Killed In West Virginia.

Bluefield, W. Va., April 17.—News has reached here of a terrible explosion at Vivian, W. Va., at the mines of the Peerless Coal and Coke Company. A small shanty containing a large amount of powder near the mine caught fire in some unexplained manner, and an explosion followed. Six men are reported killed and several others seriously injured.

Chicago, April 17.—Dr. Adolph Lorenz arrived in Chicago for the purpose of removing the cast from the leg of Lolita Armour, the youngest daughter of J. Ogden Armour, upon whim an operation for congenital dislocation of the hip was performed last October. Upon removing the cast the limb was found to be in perfect condition, and the patient was able to walk around the house without any difficulty.

"The operation was a complete success," said Dr. Lorenz, "but I shall have to be in constant attendance upon the little one for three or four weeks."

After his sojourn in Chicago Dr. Lorenz expects to make a short western tour.

Victim Decoyed From New Orleans.

New York, April 17.—The police are now said to believe that the man murdered by the gang of counterfeiters was decoyed from New Orleans to New York and killed in a cafe on Elizabeth street. They believe he brought with him, full of his own clothing, the barrel in which the body was found. The barrel is one of a shipment of 250 sent to New Orleans. A description of the murdered man has been sent to the New Orleans police, and they are expected to identify him.

SHAMROCK DISMASTED

New Cup Challenger Struck By Squall Off Weymouth, Eng.

SIR THOMAS LIPTON INJURED

The Masts and Canvas Were Carried Away and the Yacht Was Left a Mere Hulk—One of the Crew Drowned and Several Injured.

Weymouth, England, April 18. — Sir Thomas Lipton's new challenger for the America's cup was dismasted in a squall shortly after leaving the harbor preparatory to another trial spin with the Shamrock I. Her mast, as it fell over the side, carried several of the crew and all the gear and canvas overboard. One man was drowned and several persons, including Sir Thomas, who was knocked down a hatchway, were bruised or otherwise injured.

The yachts were manoeuvring in the roadstead, under mainsails, jibs, foresails, and gaff topsails prior to the start. A strong northeast breeze was blowing, but there was nothing in the nature of a gale. The boats seemed to carry their racing sails well as they fetched out from the shelter of the breakwater, the Shamrock III leading on a tack out seaward, apparently with the intention of testing the strength of the wind outside.

The Erin had taken up a position to send the boats away, round a triangular course, and everything seemed to promise a fine race. The Shamrock III then made a short board on the port tack, dragging through a heavy squall with her lee decks awash When nearly a mile off shore, she went about on the starboard tack to stand up to cross the line, when a sudden gust of wind, sweeping out of Weymouth bay, struck the yacht and completely dismantled her. The weather rigging screws of her main shrouds gave way and her mast carried away close to the deck, and with it went her spars, sails and gearing in a confused mass of wreckage.

The yacht's decks were crowded with Sir Thomas Lipton's guests, officers and men, and it seemed impossible that the disaster was not attended by serious loss of life. Deprived of its chief support, the immense steel tubular mast swayed for a fraction of a second, crumpled up like a tube of paper and went overboard, creating general havoc as it fell.

So sudden was the calamity that the yacht lay, wrecked and helpless, before those on board of her well realized what had happened. Fortunately most of the tremendous weight of the gear fell clear of the deck, as otherwise the disaster must have been multiplied tenfold. As it was, only one life was lost, that of a member of the crew named Collier, a brother-in-law of Captain Wringe. Collier at the moment of the accident was handing a binocular glass to Sir Thomas Lipton and still had the glass in his hand when he was struck by some of the tumbling gear and knocked overboard. A number of others were injured by falling gear, but none was seriously hurt. Sir Thomas was knocked down a hatchway and one of his hands was injured, but not seriously.

The hull of the Shamrock III was not damaged. The mast, when it went overboard went solid. There was at that time only one break, which was about seven feet above the deck. As the big spar, with its weight of canvas, became heavier owing to the water in it, the mast again buckled, its head going down until it rested on the bottom.

During the work of raising the mast it buckled again owing to the weight of the canvas, making three distinct breakages. The challenger was finally cleared of wreckage and was towed into the harbor. The canvas is irretrievably ruined.

"My injuries," said Sir Thomas, "are painful. I was badly shaken up by the fall and have a severely smashed hand, but everything is insignificant compared with the loss of poor Collier, who has been continuously in my service since the time of the first Shamrock. You can rebuild a yacht, but you cannot replace a man."

The loss of the seaman Collier cast a gloom over those on board Sir Thomas Lipton's steam yacht Erin, but the sentiment of the crew was unanimous in expressing relief that it was not "the governor."

Inheritance Tax Refunded.

Harrisburg, Pa., April 18. — When John H. Lick, of Lebanon, died, his executor, Samuel K. Weiss, paid to the state as collateral inheritance tax $9,570.11. It was subsequently ascertained that there had been an overvaluation of the property, and $6,342.12 was refunded to the estate. Senator Weiss afterward made the claim that the entire sum was paid in error, and claimed the balance of $3,224.99, but State Treasurer Harris was doubtful as to the claim, and asked the opinion of Attorney General Carson. In an opinion filed the attorney general decides that the money was paid in error and that the state treasurer is authorized to refund the cash.

NORTHERN SECURITIES HEARING

Request to Suspend Part of Decree Will Be Considered Monday.

St. Paul, April 18.—Circuit Judge Sanborn set Monday morning, April 20, as a time for hearing arguments on a request by attorneys for the Northern Securities Company that the decree recently handed down be suspended in so far as it prevented the payment by the Great Northern and Northern Pacific Railways of dividends to the Northern Securities Company, since these dividends were ultimately to reach the same people.

The attorneys for the railroads explained that the regular dividend day had nearly arrived, but that under the decree it was impossible for the railway companies to close their books and pay any dividend, a matter affecting something like 1,900 individuals, many of them dependent on these dividends for the necessities of life. No modification of the decree was asked, all such matters being left for the formal appeal, which was sure to come in the course of time.

District Attorney Caupt said he would present the case to Attorney General Knox in the meantime and learn his wishes. Before the case can be finally passed by the supreme court more than $14,000,000 would be paid in dividends in case this part of the decree could be suspended.

PROTEST AGAINST LIBEL BILL

Owners of Pennsylvania Newspapers Will Meet Governor Pennypacker.

Philadelphia, April 18.—The Philadelphia newspaper owners have held several meetings at which plans were perfected for the presentation to Governor Pennypacker of their protest against the libel bill which passed the legislature last week and is now in the governor's hands.

As a result of communications with the Pittsburg newspaper owners a preliminary conference has been arranged for next Monday night at Harrisburg, at which it is expected that a number of newspaper owners from the interior of the state will also be present. An invitation has been extended to the owners of the weekly as well as the daily newspapers throughout the state, and it is expected that the gathering at Harrisburg next Tuesday will be a large and representative one.

Charles Emory Smith will make the principal address on behalf of the Philadelphia newspaper owners.

VICTIM OF THE MAFIA

Mysterious Barrel Murder In New York Charged to the Society.

New York, April 18.—The police say that two men who are believed to have known the victim of the mysterious barrel murder are on the way from New Orleans to New York and are expected to identify him. Agent Flynn says that this gang belonged to the Mafia of Palermo, and that Morello was the head of that branch in America and Lupo its treasurer. Both are arrested. Flynn believes that the victim of the murder was connected with the Mafia in some other city, came to New York from New Orleans, and that his death had been planned before he reached here.

The police declare that the papers found when the suspects were arrested show that some of them have been engaged in murder and blackmailing plots, including the sending of letters demanding $1,000 from wealthy New Yorkers on pain of death.

Lieutenant Governor of Ontario Dead.

Ottawa, Ont., April 20.—Sir Oliver Mowat, lieutenant governor of Ontario, died at the Government House. He was 83 years old. Sir Oliver had been in feeble health for some time, but the accident in which he broke his leg last week hastened the end. Sir Oliver was premier of Ontario from 1872 to 1896, 24 years, thus earning the distinction of having had the longest continuous term of office as premier ever accorded to any man by the people of any province or colony in the British empire. In 1896 he resigned to become minister of justice in the Dominion cabinet. In 1897 he was appointed lieutenant governor of Ontario.

Wants His Presents Back.

The Williamsport Gazette and Bulletin says Alderman Batzle has announced his decision in the civil suit wherein a young man from the wild and woolly west instituted legal proceedings against a Newberry lady. This case is rather an unusual one in some respects. The plaintiff brought suit, alleging that the girl accepted expensive presents from him while an engagement to marry existed. While in Seattle, Washington, he sent her Christmas gifts of a gold watch and chain and a valuable pin, all of the total value of $85. Then when this young Lochinvar came out of the west and, reaching Newberry, insisted on an immediate marriage, the girl refused. Hence the suit. And now he gets the presents back. Well, at any rate, the Alderman awarded a judgement of $95 against the defendent.

KODOL
Digests What You Eat.

Weak Hearts

Are due to indigestion. Ninety-nine of every one hundred people who have heart trouble can remember when it was simple indigestion. It is a scientific fact that all cases of heart disease, not organic, are not only traceable to, but are the direct result of indigestion. All food taken into the stomach which fails of perfect digestion ferments and swells the stomach, puffing it up against the heart. This interferes with the action of the heart, and in the course of time that delicate but vital organ becomes diseased.

Kodol

Digests What You Eat

Mrs. Loring Nichols of Penn Yan, N. Y., writes: After eating, my food would distress me by making my heart palpitate and I would become very weak. Finally I got a bottle of Kodol and it gave me immediate relief. After using a few bottles I am cured.

Kodol cures Indigestion, dyspepsia and all stomach disorders, and gives the heart a full, free and untrammeled action.

THE LIBEL LAW HEARING

Even though we may be accused of egotism, we, nevertheless, say most emphatically that the House of Representatives at Harrisburg never contained at one time the same amount of brains as was gathered within its limits Tuesday morning. Representatives of the Press from every section of the State were present on that occasion, to enter their protest before Governor Pennypacker against the Grady-Libel Law, which is now in his hands awaiting only his signature, to be operative, or his veto to consign it to oblivion.

Hon. Charles Emory Smith made the opening address against the Bill, giving reasons why it should not receive the sanction of the Governor. He was followed by Alexander Simpson, Esq., and Richard C. Dale, Esq of Philadelphia, who made strong arguments in support of the Act. Hon. Thomas V. Cooper closed the discussion in the interest of the Newspapers, and it is now in the hands of Governor Pennypacker, who will, we have not the least doubt, give the matter due and careful consideration before taking final action. The Press throughout the State will await with anxiety the result of the Governor's decision, as it means much to the editors and publishers, and will to a great extent change the methods now in vogue. Aggressive Daily papers will be most affected, and to a certain extent it will curtail the liberty they have heretofore enjoyed.

Miss Judge Entertains.

Miss May Judge, daughter of Mr. and Mrs. Dominic Judge, of South Thomas street, entertained a very pleasant gathering of young people at the home of her parents Tuesday evening in honor of her friend and guest, Miss Mame Haupt, of Altoona.

There were twenty-five guests present all of whom enjoyed themselves thoroughly every minute of the time.

The party was called a hunting party and was quite unique and novel. There were forty cards, each numbered and bearing the name of an animal, which were carefully hidden in every conceivable place in the parlor and dining room, and the guests were requested to hunt for them, prizes to be awarded to those whose cards bore the first and second highest number. The hunt elicited lots of fun and there was not a spot in either room that was not searched by the eager hunters. Each hunter was provided with a miniature hunting bag and gun which they were allowed to keep as a souvenir of the occasion.

The lady's prize was won by Miss Daisy Barnes and the gentleman's prize by Philip Weaver. The booby prize, a jack-in-the-box, was awarded to Tom Fleming, he having been the poorest sportsman in the crowd.

Other games and music also helped to pass the time pleasantly.

After the fun was over choice refreshments were served. The tables were very prettily decorated with flowers and lighted by candelabra.

The evening passed most enjoyably and will long be remembered with pleasure by those present.

The Japanese Tea Party.

Mrs. Merriman held a supper party on Tuesday evening, they had Japanese puzzles and sold them two for five cents. After the party, they had ice cream and cake, after it was over the girls had Japanese dresses on, it was a show partly. The people sat in the back of the parlor, and the show people were at the front of the parlor, there were sliding doors between the front and back of the parlor, which was the curtain—so good bye.

MEETING OF COUNCIL.

Matters of Importance Which Demanded Attention at Semi-Monthly Session.

The regular semi-monthly session of the borough council met Monday evening at 7:30 o'clock at the usual place of meeting in the Public building. President Cunningham was in the chair and the following members present : Jenkins, Derstine, Fenlon, Wise, Whittaker, Kirk, Reynolds and Mallory.

The minutes of the previous meeting were read by the clerk, Mr. Kelly, and there being no corrections they stood approved.

J. Thomas Mitchell representing the boro Auditors reported that they had finished auditing the boro accounts and that they found them satisfactory. However they called attention to the amount of coal used. By various tests made by experts the water works is using more coal than is necessary to pump the amount of water used. It is said 1470 tons of coal was used in one year where 919 tons was the highest amount the tests showed to be required.

Mr. Underwood, one of the Auditors, recommended the removal of the lock-up to a more suitable ground on boro property. It is not on boro property now and the boro pays ground rent for it.

Burgess Walker reported collecting $18.00 in fines and also endorsed the suggestion made by Mr. Underwood in regard to moving the lock-up.

The report of the various standing committees elicited nothing of great importance except from the Finance committee which was as follows :

Boro Acct:—

Balance in fund		1275.12

Chairman Fenlon of the Water Improvement Committee suggested the plan of putting a roof over the reservoir to protect it. The plans were drawn by architect Robert Cole and would cost from $350. to $475 dollars. It was discussed at length, some of the council being opposed to roofing and being in favor of building a cover to the wall and also a retaining wall. The question was referred back to the Water Works Improvement Committee for further investigation and report.

The question of extending water to Richard Lutz and other parties on East Howard street drew forth considerable discussion. Dr. Kirk was of the opinion that a meter should be placed there and one party held responsible for all the water used. He said the boro lost money on all the water furnished to parties outside the boro limits. The matter was referred to the Water committee with power to act.

Mr. Fenlon moved that the Water Committee be instructed to cut off the water from all those parties who refused to pay their water tax. This was seconded by Col. Reynolds and carried.

The coal question as drawn to the attention of council by the boro auditors was then taken up. Mr. Fenlon suggested that the coal contracts be let for one year and that bids be asked for furnishing the coal and hauling it to the Water Works. Railroad weight to be taken. To be bought by the car load and delivered on siding.

Col. Reynolds moved that the Water committee solicit bids for furnishing coal to Water Works for period of one year and for hauling of same. Bids to be submitted to council for approval. Seconded by Mr. Jenkins and carried.

The matter of moving the lock-up was left to the Fire and Police committee in consultation with the Burgess with power to act.

R. J. Schad & Brother were granted permission to dig up Pike alley to Penn and up Penn to High for the purpose of connecting with the sewer pipe on Allegheny street.

The Street committee was instructed to receive bids for cribbing Water street from High street bridge to the Central Railroad station.

Burgess Walker made a few pertinent remarks concerning the dog question. He said that he wished that any citizen who knew of a dog that was in the habit of attacking people or in any way dangerous would report the same to him and he would see that the dogs were either penned up, muzzled or killed. Already one dog of a dangerous character has been killed. The ideas of the Burgess in this matter received the hearty endorsement of Council.

The following bills were approved and ordered paid :

His lecture on "The Hero-Recognized and Unrecognized", is one of the most instructive, original, clear in statement and logical in conclusions that I have ever heard. I wish every American had the opportunity to hear it."

The lamented Gov. Hastings also says of the same lecturer and lecture. His lecture on "the Hero-Recognized and Unrecognized", is one of the grandest oratorical efforts I have ever listened to. I consider Mr. Steck, without a superior among all the men of the platform today."

Representatives of 40 towns north of the lake professed allegiance to the United States before Major Ballard. Peace is assured until an attempt is made to abolish slavery. An Early Morning Wedding.

A very pretty wedding was solemnized in St. John's Catholic church at 6:30 o'clock Wednesday morning. The contracting parties being Mr. C. M. Parrish and Miss Rose Genevieve Fox.

Before the time appointed for the ceremony, a large number of friends had assembled in the church to witness the event.

Promptly at the hour named the bridal party entered the church and proceeded to the altar, accompanied by Mr. Joseph L. Fox as Groomsman, and Miss Mame Fox as Bridesmaid, they being brother and sister of the bride. Miss Mary Brown presided at the organ and rendered Lobengrens wedding march. Rev. P. McArdle met the bridal party at the altar and by the solemn and beautiful service of that church united them in the holy bonds of matrimony and pronounced them man and wife.

A wedding breakfast was served at the home of the bride's mother Mrs. Mary T. Fox, to which a very few intimate friends of the families were invited.

Mr. and Mrs. Parrish left on the 9:28 train for Philadelphia and New York. On their return they will occupy rooms in Petrikin Hall which has been handsomely fitted up for their reception.

The bride was handsomely gowned in white chiffon over white taffeta trimmed in real lace. She carried a bouquet of bridal roses.

The bridesmaid was attired in a becoming gown of gray silk voile, with black hat, and carried a bouquet of pink roses.

Both Mr. and Mrs. Parrish are well known in Bellefonte, the bride being the daughter of the late Joseph Fox. For several years she was a faithful and successful teacher in our public schools socially she is very popular, and has many friends.

Mr. Parrish is one of our leading druggists, and has been a citizen of Bellefonte for many years. He is one of the very best men in our town.

—Speaking of illustrious men like George Washington or notorious characters like Annanias—Bros. Thos. Harter of the Gazette called us aside Thursday, and boastingly informed us that he had been out fishing Wednesday, and caught seventeen trout, running in size from six and one half inches up to a yard. We sadly congratulated him on his success, and passed on, meditating upon the degeneracy of mankind, especially during the trout season.

IT MUST BE TRUE.

Bellefonte Readers Must Come to That Conclusion.

It is not the telling of a single case in Bellefonte but scores of citizens testify. Endorsement by people you know bears the stamp of truth. The following is one of the public statements made in this locality about Doan's Kidney Pills:

George Gross, of Water street, says: "In the summer of 1895 I used Doan's Kidney Pills for backache, procuring them from the Bush Block drug store. Accompanying the pains in my back was an annoyance from the kidney secretions. Doan's Kidney Pills cured me after I had been troubled for years. I thought I was going to have bachache again but two years afterward I went fishing, got soaked through and this ended in affecting my back. I again restored my old cure, Doan's Kidney Pills, and they did me good immediately although in the meantime I had taken other remedies but without obtaining relief. I can as conscientiously recommend Doan's Kidney Pills now as I did formerly for backache or kidney trouble."

IRISH BILL APPROVED

National Convention Accepts Principles of Land Measure.

A REPRESENTATIVE GATHERING

"Eager For Peace, But Ready For War," Was Keynote of Dublin Convention—Speakers Stirred Audience to Enthusiasm.

Dublin, April 17.—By a unanimous vote the Irish National convention which met here accepted in principle the Irish land bill introduced in the house of commons by Mr. Wyndham, chief secretary for Ireland, and entrusted to John Redmond and his party the task of securing in the house of commons that "serious amendment in various points of vital importance" which the national convention may consider essential. The convention outlined the shape that the amendments should take, and Lord Dunraven, Lord Mayo, Captain Shawe-Taylor, John Redmond, William O'Brien and T. W. Russell are likely to meet at a round conference table to discuss the landlords' and tenants' opinions on the land bill and try to arrive at a common basis of parliamentary action.

The proceedings at the convention revealed discontent with various features of the bill, but nothing so serious as to indicate a danger of its ultimate rejection. Even Michael Davitt, who had an opportunity of dividing the delegates into two bitterly opposing camps, and who amidst dramatic excitement subordinated his own views, pledged himself to abide by the verdict. John Redmond and William O'Brien triumphed over all objections; indeed, the objectors, save Michael Davitt, were scarcely given a hearing by the delegates.

Not for many days has such a representative gathering been seen in Dublin. Irish wit and eloquence lived up to its reputation. Speaker after speaker brought the audience to that pitch of enthusiasm where hats were thrown up and men stood upon the chairs, yelling with delight. The force of habit was far too strong to prevent the sons of the soil from cheering madly when some speaker referred to the landlords as "bloodsuckers," which not infrequently brought the response from the body of the hall "to hell with them." "Good men," the audience would shout when William O'Brien, Michael Davitt or some other popular orator voiced the prevailing sentiment.

Throughout this gathering of Irish tenants, so picturesque, so terribly earnest, so swayed by the eloquence of Irish leaders, never ceased to make a fit setting for the heroic epithets in which the speakers described the convention and the issues depending on its decision. Through all the various waves of emotion John Redmond sat in the chair, impassive and keeping order "like Parnell," as an old Nationalist said. His head was constantly endangered by the swinging hands and arms of the speakers.

William O'Brien and Michael Davitt were the heroes of the hour. T. W. Russell, the Ulster member, who unexpectedly appeared in the hall, received a great welcome from his former opponents. Much significance is attached to his presence, as he is not a member of the Nationalist party.

"Eager for peace, but ready for war in case the English wish to continue," was, to quote one speaker, the keynote of the convention.

Preserving Order at Joplin.

Joplin, Mo., April 17.—It was feared that the mob which lynched a tramp negro here, burned the homes of negroes and ran almost every negro out of Joplin, would resume the depredations. Mayor Trigg issued a proclamation calling a meeting of good citizens to organize 500 vigilantes for the upholding of order in the city. This was done, and although throngs began to fill the streets by nightfall, there was no sign of disorder. The excitement is still intense, but it is believed the mayor's action has quieted effectually any desire to continue the rioting.

Last of Colombian Rebels.

Panama, April 17.—After the recent revolution in Colombia had come to an end a few members of the band deaded by an Indian named Victoriano Lorenzo remained in the mountains of the province of Cocle, and from their refuge very often descended and committed assaults on travelers. Government troops were sent after them, and as a result of a short engagement they were captured. Lorenzo's lieutenant was killed, while the others captured were tried by court martial and shot.

Murder at Passaic, N. J.

Passaic, N. J., April 17.—The Dundee section, populated largely by foreigners, was the scene of the murder of Calogero Saleco, an Italian, aged 30 years. Saleco's lifeless body was found in the hallway of his own home, where he had been shot. Saleco had been out to a nearby store and was returning home, when persons in the house heard the shots fired and others on the street saw a man running away. The motive for the crime is unknown.

IRISH LAND BILL SAFE

Amendments Adopted By National Convention Will Be Accepted.

Dublin, April 18.—The Irish National convention has adjourned. In two days it got through a large amount of controversial work and emerged, to quote T. P. O'Connor, "scathless and honored from a test which the whole world was watching. It was not only shaping the destinies of Ireland, but it held in its hand the fate of the powerful British ministry."

John Redmond, replying to an enthusiastic vote of thanks for his chairmanship, declared that the convention was a credit in every particular to Ireland. In a statement, Mr. Redmond makes the important announcement that the amendments adopted by the convention will be accepted at the joint conference at which Lord Dunraven, Lord Mayo, Captain Shawe-Taylor, John Redmond, William O'Brien and T. W. Russell will meet. This practically ensures the passage of the Irish land bill.

One of the most important amendments was that proposed by Michael Davitt that the principle of the American homestead law be introduced into the land bill to "safeguard the peasants from the results of improvident borrowing and the operation of land grabbers and land jobbers."

The delegates returned to their homes in a happy frame of mind, echoing John Redmond's parting words: "May the God of our fathers once again visit this land with the peace and plenty that are her due."

VENEZUELAN REBELS DEFEATED

600 Killed, Wounded and Captured By Government Troops.

Higuepote, Venezuela, April 18.—A government army assumed the defensive against the rebels under General Rolando 10 days ago. They marched on the camp of the revolutionists, who numbered 3,000, near Guatiro. General Rolando retreated to Capaya and later to Tacarigua. He was ignorant of the fact that President Castro had sent First Vice President Gomez with 1800 men by sea to this port with orders to attack him on the rear. The advance guard of General Rolando's force was surprised, and after a fight lasting 14 hours the rebels left in the hands of the government troops 600 men, killed, wounded or prisoners. The government troops also lost heavily.

The following morning Vice President Gomez captured 1,500,000 Mauser cartridges landed at Rio Chico some days ago for the revolutionists by the Dutch schooner Veloce from Trinidad. The rebels, finding the government troops on their rear, tried to escape by the road to Guapo and Alta Gracia, but were intercepted by 1,000 government troops, and aften an hour's fight the government captured 200 men, 40 officers and 80,000 cartridges.

SELECTING GOEBEL'S MURDERER

Youtsey Swears Taylor Was Afraid to Risk a Negro.

Frankfort, Ky., April 18—The Franklin county circuit court room was again packed to the doors with the crowd in attendance at the Howard trial. Henry E. Youtsey was still on the stand for cross-examination.

Youtsey told of making an arrangement with Mason Hockersmith, colored, to kill Goebel. Hockersmith wanted to interview Governor Taylor before doing the shooting, and witness went to see Taylor to arrange for the interview.

Taylor told witness he could not afford to risk a negro, and witness returned and told Hockersmith what he said. Johnson, who also had been selected to do the killing, left here January 25. Asked as to the substance of a letter the witness claimed to have written to Howard January 26, at Governor Taylor's dictation, witness said it merely said to Howard to come to Frankfort at once, as Taylor was about to be robbed of his office. Howard, he said, knew when he arrived here that he had been selected to do the killing.

Four Persons Drowned.

Clinton, Ind., April 18. — Ora Eddington, his wife and their three small children, with two neighbor boys, started to cross the Wabash bottoms in the face of a warning of danger. The three Eddington children and William Dudley were drowned. The party got off the road and were soon beyond their depth. Hundreds of people witnessed the disaster, but a relief boat was late in reaching the struggling people. Eddington escaped on a horse and his wife was rescued by William Jacks, 12 years old. Three of the bodies were recovered.

Indicted For Smuggling.

San Juan, P. R., April 18. — The grand jury, which insisted on investigating the so-called smuggling cases, has returned true bills against eight persons, whose names have not been published. The warrants for their arrest were issued this morning. It is reported that no indictment was presented against Commander Mentz, U. S. N., because he exhibited a certificate in payment of duties to the treasury.

THE POSTAL SCANDAL

Organized Labor May Become a Party to the Investigation.

HAVE FORMULATED CHARGES

Central Labor Union of Washington Alleges Favoritism and Incompetency Against Officials—"Promotion Ring" In Brooklyn.

Washington, April 18.—The indications are that organized labor will become a party to the investigation of the affairs of the postoffice department. A special committee of the Central Labor Union of this city, which has been secretly considering the matter, has formulated charges of favoritism, incompetency, etc., against certain of the officials of the mail equipment division of the department. The charges allege that mail bags that do not conform to the specifications have been accepted by the chief of the division, Colonel Thomas P. Graham. Other charges allege among other things that a worthy and needy white woman is discriminated against in favor of a negro woman employed there; that the forewoman of the sewing room used offensive language toward her subordinates; that when the machine operators were reduced from $2 per day to $1.75 per day, the salaries of the superintendent and some of the other officers were raised from $150 to $200 per annum; that the suspension of one clerk was illegal and another unjust; that engineers are worked overtime without compensation; that the foreman of the lockshop is not a lockmaker, and that recommendations for promotion are not based on merit.

Reports that a "promotion ring" existed to control promotions in the Brooklyn, N. Y., postoffice similar to that which is now being investigated in New York city were brought to the attention of the postoffice department. It was stated at the department, however, that as yet there was no evidence of such in its possession.

Postmaster General Payne said that he was not contemplating the suspension of any official pending the close of the investigation, but added that if Assistant Postmaster General Bristow, who is conducting the investigation, should recommend suspension, the recommendation would be considered very carefully and with a disposition to follow the recommendation, though he (Mr. Payne) would exercise his independent judgment as to what the circumstances warranted.

Mr. Payne was asked regarding the alleged advance information furnished to interested parties with reference to the appointment of rural free delivery carriers. "I suppose you mean by that," responded the postmaster general, "the possibility of collusion between the department and business concerns interested. I do not see how such tips could come from the department, because the civil service commission has to pass on the selection of carriers."

The postmaster general said he thought it was the duty of newspapers that acquire evidence of improper actions of persons in the service to furnish it to the department and aid in the investigation now in progress.

For Mayor of Baltimore.

Baltimore, April 17.—Congressman Frank C. Wachter was unanimously nominated for mayor by the delegates selected at the Republican primaries 10 days ago. His opponent in the primaries was present at the convention and made an address, in which he asked his friends for their support of the ticket nominated. Robert M. Lane, at present state's attorney, is the Democratic nominee. The election will be held on May 5.

Boy Sentenced to Hang.

Charlotte, N. C., April 17.—John Broadnax, the 16-year-old colored boy, who killed Sidney Blair, an aged farmer in Rockingham county, on March 22, was sentenced to be hanged on May 22, the jury having returned a verdict of murder in the first degree. Broadnax shot the farmer and his niece, Miss Sallie Walker, and was in the act of plundering the house when arrested. Miss Walker's injuries were slight.

Pugilist Fined $100.

Boston, April 17.—A fine of $100 was imposed on George Gardiner, the pugilist, the fighter having been pronounced guilty of assault upon Peter Maher, with whom he recently fought before a club here. Persons interested consider the case important, as it indicated a method whereby the authorities may reach bouts given before private clubs, with which the courts had decided they could not interfere.

The Meshes are Getting Too Fine.

Awaiting the solution of the question whether the bridle is part of a mule's harness 1,200 miners of the Beech Creek Coal and Coke company at Patton, Cambria county, and Arcadia, Indiana county, are idle. The men quit work in a body Thursday and propose to stay on strike until the question is settled. The scale signed by the operators and miners of Altoona states that "drivers shall not be required to harness a mule." The drivers interpret this to mean that they are not to put on the bridle. The operators are of the opinion that the bridle is not a part of the harness and therefore the drivers should put it on. At a meeting of the drivers they voted to stick to their contention, and when the men went to work Thursday morning all the mules were harnessed, but none of them had on their bridles and the stable bosses informed the drivers that it was up to them to bridle the animals, but they refused and went home, thus stopping the work of all the mines.

Superintendent Leingle has had several conferences with the drivers, but to no avail. The superintendent states that the bridle is no more a part of the harness of a mule than a hat is a part of a suit of clothes."

Official Board Resigns.

The official board of the Mulberry street Methodist church, Saturday resigned in a body and they have nearly all decided to lift their cards of membership and attend some other church. This action is an outcome of the present trouble in that church, and is taken by the board as the quickest way of ending the difficulty. While taking the position of refusing to acknowledge the right of the conference to dictate for several years against the request of the board, they do not wish to continue the struggle indefinitely.

The matter of resigning has been under consideration by the board most of the week, and culminated in the decision of seventeen of the members to present their resignations Saturday. The members say that a portion of the membership of the church has not sustained them in their connection with the conference. How large this portion of the membership is depends entirely on the point of view of the person making the estimate. The Rev. Mr. Houck will probably now select a new board, and continue as the pastor of the church.

The Forest Reserves.

Forest Leaves, the official organs of the Pennsylvania Forestry association says the state has 572,1722 acres of forest reservation. One body of land situated in Clinton and Centre counties, in the valley of the west branch of the Susquehanna river, has been officially designated as the Hopkins reservation, but its boundaries have not yet been exactly defined. In a general way it might be said that it extends from a mile below Renovo, up the west branch on the southern bank of that stream, to about four miles above Keating, and it runs back for probably, on the average, six miles from the river toward and including part of the Beech creek waters. It includes land known as the Slaymaker, Pardee and Boudinot, with a few other smaller tracts. This has been lumbered off, but in parts much good timber, principally yellow pine and hemlock, remain.

Not Contagious.

During the epidemic of smallpox in Philadelphia last year, when every precaution possible was taken to prevent the spread of the disease, a little tot, coming to school one day, informed her teacher that her mamma had been taken to the hospital in the ambulance that morning.

The teacher, fearing this might be a case of smallpox, sent the child home immediately to find out what was the matter with mamma.

She returned for the afternoon session. Upon being question she replied: "Why, mamma has twins, but the doctor says it's not catching!"

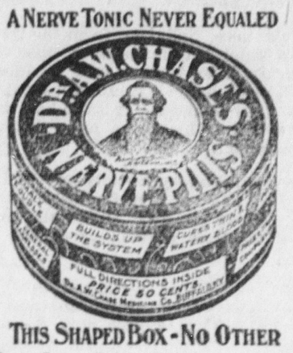
Nervous Headache.

The Cause of Much Suffering to Women is Permanently Cured When the System is Built Up By

DR. A. W. CHASE NERVE PILLS

A NERVE TONIC NEVER EQUALED



THIS SHAPED BOX—NO OTHER

Mrs. John Fall of 4th St., Toronto, O., says: „I like Dr. A. W. Chase's Nerve Pills because they cured my nervous sick headaches—these headaches used to play me out and leave me weak and nervous, the pain being so severe. My eyes used to get stiff and sore during the attack and the neck so stiff I could hardly turn it. The Nerve Pills, however, proved to be just what I needed and cured the attacks in a hurry. As a result I feel steady in nerves, physically strong and vigorous and in every way sound and well. This makes me feel I can't speak too highly when the head aches hard and throbs; when the neck and eyes grow stiff, the face flushes or grows deathly white; when any excitement or over effort brings on an attack of nervous headache so severe that it leaves you weak, trembly, shakly and utterly worthless for days, it is a sure indication that the nervous system is shattered—that resistive power is gone—that you neen a medicine that will rebuild and re-supply the lost nerve force, that will so strengthen you that you can resist and overcome these terrible seizures. Such a medicine is Dr. A. W. CHASE'S NERVE PILLS, a medicine that does not relieve but goes to the root of the trouble and positively cures.

Mrs. Della Kerns of No. 716 Seneca St., Buffalo, N. Y., says:—"When I got the box of Dr. A. W. Chase's Nerve Pills I was so nervous I could not keep still, could not sleep and was in a mightly bad state. My head ached hard—those hard racking, nervous headaches that left me weak and prostrated. I took the box of medicine and since that time have been all right—no headaches—no nervousness, feel strong and vigorous, and can sleep well again. I am glad, indeed, to recommend the medicine, as I consider it a safe and certain cure for such troubles. In action it is very pleasant and agreeable and what is more, devoid of all the unpleasant effects of the usual headache preparations. It certainly is a grand medicine."

More Cattle Needed.

The people of this country will be facing a problem before the close of a quarter of a century that they do not now generally contemplate. Our population is increasing quite rapidly, and should the present increase continue for twenty years, which would be nearly double our present population, how much additional animal food would be needed to supply the increase? If we have not the cattle, sheep and hogs with which to feed the people, what will be the effect of the substitute upon the populace of the future, also upon the pocketbooks of the people? When we look back over our statistical history we find that the percentage of live stock is getting smaller. While our population is increasing at a marvelous rate our cattle herds are virtually at a standstill. The heavy drafts for domestic supply and export will further destroy our ability to keep up with the demand and still keep some sort of reserve for range and propagation purposes. At the present ratio of increasing in population we will have in 1920 over 100,000,000 people. We should at that time have something like 55,000,000 head each of cattle, hogs and sheep in proportion to maintain the present ratio of live stock to the head of population. Will we?

BATTLE WITH OUTLAWS

Two Killed and One Fatally Shot in Running Down Desperado.

TOOK REFUGE IN A JOSS HOUSE

Outlaw, Charged With Killing Seven Men, Fought Until He Fell, After Killing One Man and Fatally Injuring Another.

Bakersfield, Cal., April 20.—James McKinney, the outlaw, was shot and killed here. Deputy Sheriff Tibbets was also killed, and Constable Packard was fatally shot.

Sheriffs Kelly, of Kern; Collins, of Tulare, and Leovin, of Arizona counties, with Officers Will and Burt Tibbets, Gus Tower and Constable Packard surrounded McKinney in a Chinese house. Will Tibbets and Packard approached McKinney in the house and ordered him to surrender. McKinney answered by shooting. Will Tibbets was shot through the stomach, and died soon after; Packard was shot through the neck and shoulders and dangerously wounded. Burt Tibbets, a brother of the dead deputy sheriff, shot McKinney through the mouth and neck, killing him.

McKinney had been in Bakersfield two days, and was harbored by friends in a Chinese joss house. The house was a regular fort. In the place with McKinney was Hulz, another desperado. McKinney had a sawed off shot gun and Hulz used a pistol. Hulz would not obey the order to come out of the barricaded house, and the fire department was ordered to the scene. Hulz gave himself up. He was taken to the county jail. An immense mob surrounded the jail and tried to take him from the officers.

Another accomplice of McKinney was known to be in the house where the battle took place, but he would not surrender. The building was set on fire and the man was soon smoked out and taken to jail.

McKinney was accused of killing seven men in the past few years. He was arrested several months ago, and after a sensational escape from jail roamed unmolested about the country until the officers learned of his whereabouts in this city.

POLICEMAN HOLDS MOB AT BAY

Chicago Officer Shot Three Men During a Riot.

Chicago, April 20.—Because one of their number had been arrested for creating a disturbance, a crowd of Greeks, who were celebrating their Easter Sunday here, created a riot, and before the mob could be dispersed three of them had been shot by Policeman Cohen and Henry Oppenheimer, a bystander, who came to the assistance of Cohen. The three wounded men, who are said to have been the leaders of the attack on the officer, were arrested. None of them was seriously injured.

During the Easter celebration some one threw a lighted firecracker among the pedestrians in the street, and Policeman Cohen immediately arrested the offender. The crowd attacked the officer, knocking him down with a brick. Cohen sprang to his feet and fired a shot into the crowd, hitting Nick Rizzitto in the left shoulder. This act infuriated the mob, which again rushed at the officer, and probably would have killed him, had not Oppenheimer sprung to his assistance. He held the crowd at bay for a moment, until Cohen could recover from the attack. Surrounded by the maddened crowd, they fired several shots, wounding two of the disturbers, James Chipanvitz and John Iolcets by name.

Cohen and his companion, after being severely bruised and having their clothing almost torn from their backs, managed to escape to a saloon, where they held the crowd back until the arrival of police aid, which dispersed the mob.

Well-Known Publisher Dead.

Reading, Pa., April 20.—Jesse G. Hawley, proprietor of the Reading Eagle, of which he was one of the founders in 1868, died here last evening aged 63 years. Mr. Hawley was of Quaker parentage, born in Chester County, Pa., and came to Reading over 40 years ago. Soon after coming here he was admitted to the Berks county bar, of which for years he was a leading member. With the establishment of his newspaper he gradually gave up the practice of law. The Eagle, of which he published daily, Sunday, and weekly editions, under his guidance has become one of the most valuable newspaper properties in eastern Pennsylvania.

American Extravagance.

Economy in this country, and especially on the Pacific coast, is almost disreputable, says the San Francisco Bulletin. A man is ashamed to acknowledge that he walks to save fare or orders a light lunch to save the expense of a heavy one. One never finds Californians ordering one portion of meat at a restaurant for two persons, even when they know that one portion would be enough for both. There was a time, not long ago, when people in San Francisco disdained to accept change from a quarter of a dollar, and, especially in barrooms, the porter thrived and grew rich on the small silver, contemptuously called "chicken feed," which patrons left on the bar. To be saving in the United States a man must have moral courage. The man who refuses to pay more than a reasonable price for clothes, let us say, or for dinners, and who puts the money thus saved into a bank feels like a thief, and people talk and act as if it were a crime to save money. Only in extravagant America, however, is economy disreputable. Here as some one has written, where one man is as good as another, he must be lavish of his money; being all sovereigns, we must be all prodigal as princes. But in Europe on one respects a man the less or treats him the worse for trying to live cheaply. People practice little economies in Europe. They dare not order a big dinner when they want only a light collation. They are not afraid to travel second class or to put up at the quieter and less expensive first class hotels.

Forest Fires.

All realize the worth of the forest. With the return of each Arbor Day impressions of the value of trees to man's welfare are made upon the youthful mind in our schools.

The rapid demand for lumber has almost depleted our forests of timber, and the wiser ones of today are striving to provide against the lumber famine of the future by protecting and fostering our young growth of timber. If the demand for lumber was the only source of devastation of the forest, nature might soon hold her own against the ravages of man, but our annual forest fires destroy the half-grown trees to an alarming extent and our hill sides and mountains from this cause, instead of being covered with thriving trees, are flecked here and there with scrubby under-brush.

Some of the causes of this wanton destruction is the kindling of fires for mere pastime of children, the throwing of a burning stump of a cigar in a cluster of dry leaves, by a careless smoker, the malicious setting on fire of heaps of brush by vagabonds and others; now and then a spark from a locomotive starts a blaze.

Public sentiment should be deeply aroused against everything that destroys our forests. Land in its barrenness could be made subservient to the need of man by the bearing of trees. There should be forest tree culture even from the valley to the mountain top and then this land should be protected from fire.

A True Fish Story.

The Rev. S. B. Bidlack of Laporte writing to a friend in Williamsport about his trout fishing experience Wednesday, said: "Myself and the Rev. S. H. Engler were together. We caught, between us, 22 fine ones. The weather being very cold and the streams swollen, we found it quite difficult to succeed. All of our catches were made in deep holes. The trout are not yet distributed throughout the streams. In the forenoon the cold was severe enough to freeze particles of ice on my coat from the rain that fell. The fish are larger this season than last. Only one was caught that was too small to retain, being a little less than six inches. Nearly all measured from eight to ten inches in length.

Wants to Carry it Himself.

A neighboring country editor, who evidently has troubles of his own, is having heart to-heart talks with his delinquent subscribers. The following is the latest: "Good morning; have you paid your subscription this year? Perhaps you owe for the last year or several years. Now you understand, we don't need money; we have millions—to get. But it is really an imposition to let people go on carrying our money around when we are strong and healthy and so abundantly able to bear the burden ourselves. For this reason we ask anybody who has any of our money in his possession to leave it at the office, or send it by mail, freight, express or any other way, just so it gets here. Silver and gold are heavy, and it would be a matter of life long regret if anybody should get bow-legged carrying it around for us."

BOXERS SUPPRESSED

Chinese Viceroy Takes Prompt Steps to Prevent Uprising.

Washington, April 20. — Minister Conger reports to the state department from Peking under date of March 12 that an attempt has been made in the district of Yutien, about 100 miles west of Peking, to reorganize the Boxer movement, but was promptly suppressed by the energetic action of the viceroy, the famous Yuan Shih Hi, who stood like a rock against the Boxers in 1900. Several soldiers lost their lives in the attempt to arrest the criminals. Several of the criminals were killed and 10 others were arrested, who are to be beheaded and the heads exposed where the organization started.

Mr. Conger says that only such prompt measures will prevent similar organizations in other localities, and that it is hoped and believed Yuan Shih Hi will continue as he has begun.

Heavy penalties and fines are imposed on householders who furnish quarters for Boxer meetings, on the Boxers themselves and on those who fail to expose Boxers to arrest. Altars propagating evil teachings are to be destroyed and a reward of 200 taels is offered to any one delivering up bound any Boxer. Similar rewards are offered for information on which arrests can be made. Where Boxers practice the magistrates are to be impeached.

DIVORCE OUR GREATEST EVIL

Bishop Satterlee Says Jews Preserve Family Ties Better Than Christians.

Washington, April 20.—"The Jews are preserving the home and family better than we Christians are doing. I do not know how to account for this but I do know it to be a fact." Bishop Satterlee, of the Episcopal church, made this declaration in a sermon here last night, in which the main subject of his discourse was divorce. Men, said the bishop, are losing respect for the home and caring less for the family, the unit of our civilization. On the shoulders of the husbands and fathers of the land, he continued, rests the responsibility for the low estate to which the family has fallen in this country. This fostered and encouraged the greatest curse of the age—divorce and the loose manner in which the sacred marriage vows were being kept.

"The great evil—the most frightful danger—of our age is divorce and the breaking down of the family institution," said the biship. "If it is not stopped, the women of this country and our race will be degraded within 50 years."

PICKED GOOSE AND MAY GO MAD

Dog With Rabies Had Bitten the Fowl, and Family Trembles.

Norristown, Pa., April 20.—The picking of a goose bitten by a mad dog caused the confinement of a whole Harleysville family in a dark room, under treatment for the prevention of hydrophobia.

A few days ago a dog came to the farm of James Swartley and killed the goose in question. The fowl was picked by Swartley, his wife and son for the feathers.

At Mainland, several miles distant, John Clemens killed the dog, which showed signs of rabies. When the Swartleys heard of this they became alarmed, fearing that they had been exposed to hydrophobia in picking the goose, and they made haste to consult a physician. Hence their incarceration.

Pittsburg Strike Settled.

Pittsburg, April 20.—The strike of the painters and decorators, which has been on in the Pittsburg district for nearly two months was practically settled at a mass meeting of the Brotherhood. The men agreed to accept $3.40 for a day's work of eight hours and pay their own car fare to and from work. Last year they received $3.20 and had their car fare paid. This year they demanded $3.60 and car fare. The compromise proposed by the masters was agreed to with the proviso that the scale committee should endeavor at another conference with the masters to secure car fare and some modifications of working rules.

Telephone Conversation.

A certain grocer has been hunting for the owner of a voice that claimed his attention at the telephone one busy morning. When he finds his man the meeting will furnish material for an interesting item, and this dialogue explains why:

The Voice: "Hello! Is that you Charles?"

Grocer: "Yes."

Voice: "Well, how are you?"

Grocer: "First rate."

Voice: "Your looking well."

Grocer: "I'm feeling better than I look."

Voice: "That's good;—glad to hear it. Got any salt fish?"

Grocer: "Yes."

Voice: "Is it fresh?"

Grocer: "Yes; came in this morning."

Voice: "Cod or pollock?"

Grocer: "Got both; which do you want?"

Voice: "Well, I don't know. Is the pollock good and dry?"

Grocer: "Yes."

Voice: "Why don't you give it a drink then?" At this point the grocer brought the colloquy to a sudden termination with a remark that would be out of place in polite society.

High Pressure Days.

Men and women alike have to work incessantly with brain and to hold their own nowadays. Never were the demands of business, the wants of the family, the requirments of society, more numerous. The first effect of the praiseworthy effort to keep up with all these things is commonly seen in a weakened or debilitated condition of the nervous system, which results in dyspepsia, defective nutrition of both body and brain, and in extreme cases in complete nervous prostration. It is clearly seen that what is needed is what will sustain the system, give vigor and tone to the nerves, and keep the digestive and assimilative functions healthy and active. From personal knowledge, we can recommend Hood's Sarsaparilla for this purpose. It acts on all the vital organs, builts up the whole system, and fits men and women for these high-pressure days.

—Ex Treasurer William T. Speer has invested in an anglers outfit, and will waste a lot of valuable time in trying to inveigle the wily trout, to nibble at his bait. Poor fellow, he had better save his time and money. He knows nothing about fishing; and occupies space along the creek, that could be used to better advantage by sportsmen. If he must have fish, why don't he go to some grocery and buy a salt mackeral, this will be the easiest, best, and only way of satisfying his appetite for the finny tribe.

The bleeding could not be stopped and Milclark gradually passed into a comatose condition. He lived three days before his body was emptied of blood.

—President Parry, of the Manufacturers' association, was recently foolish enough to make a bitter attack upon organized labor and now Samuel Gompers, head of the American Federation of Labor, naturally, but without any real occasion, replies in kind. The sympathies of the American people are all with organized labor, for the reason that an over-whelming majority are in the laboring ranks. Nothing that such hot heads as President Parry can say will do labor one-tenth the harm that unwise and injudicious leadership will produce.

—For several days past there has been a rumor afloat to the effect that the Pennsylvania Match Factory was to close down indefinitely. A reporter for this paper interviewed the management Tuesday morning and we are glad to be able to state that the report in circulation is without foundation. The upper factory will be closed for about three weeks in order to put in some new machines which will increase the output of the factory. It would indeed be a great loss to the community to lose this valuable industry.

—Recently there has been invented an envelope which records of itself any attempt to tamper with its contents. The flap is imbued with some chemical composition which when operated on by a dampening process or any other means of penetrating to its inclosure records the transaction by causing the words "Attempt to open" to appear. It is thought that the inquisitive will think twice before pursuing their researches in face of such an invention.

—Albert Sword, of Shawmut, died last Thursday, Coupled with misfortune he afforded a rare instance of sustaining vitality. Four years ago—lacking a week—he met with an accident in which his back was broken. The fracture affected the spinal cord, but not sufficiently to cause death at once. The members in and around Pittsburg, in whose charge the entire matter of entertainment is placed, are determined to surpass any previous convention and are sparing neither time nor expense to uphold Pittsburg's reputation as the "king of convention cities." They have established headquarters in room No. 10, Monongahela House.

—The Houtzdale Citizen says that the small-pox scare near that place is about cleaned up.

—The fellow who has nothing to say generally manages to say it at great length.

—Workmen excavating for the new court house at Wilkesbarre on Tuesday discovered a buried railroad track. It was laid in 1864 by the Lehigh Valley railroad to maintain a right of way along the old canal bed north of that city.

—The appointment of John F. Potter as Justice of the Peace of Boggs township was sent to the senate Wednesday by Governor Penneypacker and promptly confirmed by that body. We congratulate Mr. Potter on his good fortune.

—The announcement was made by President Shaffer at the annual meeting of the Amalgamated Association of Ironworkers, at Columbus, Ohio, that the organization has gained 2,000 members in the East during the past year. —One of the best acts passed at the last session of the legislature was that prohibiting the discharge of Flobert rifles within the limits of any city of this commonwealth. The governor promptly signed the measure, so that it is now a law. Let us earnestly hope the proper authorities everywhere will take special pains to secure its enforcement.

—The new battleship Maine seems to be somewhat of a failure. While the assurance is sent out to the country that there are no structural defects, yet every few days one hears something to the discredit of the vessel. The latest story is to the effect that her boilers are in very bad condition. It would be a pity if this namesake of the historic and and unfortunate ship whose remains lie in Havana harbor should prove to be a complete and costly failure.

—One of the remarkable events of the opening years of the new century promises to be the complete pacification of the Irish people under a law proposed and enacted by a conservative government. The new land bill prepared by the government leaders has already been accepted by the Irish National convention, sitting in Dublin yesterday, by a unanimous vote endorsed the measure. It begins to look more and more as though England and Ireland are at last to come to an understanding upon a basis that will prove honorable to the former and just to the latter. Every friend of humanity in the world will be glad to observe the hopeful treand of events.

—There is an Italian working on the construction crew of the B. R. & P., at Marion Centre, Indiana county, who has the unique distinction of having been legally hanged. He was a member of the standing army in Italy and shot a comrad in a quarrel. He was tried, sentenced, and hanged by the neck until dead (according to the doctors), and put in a box and turned over to his friends. But the doctors had made a mistake, and his friends revived him. He holds his head off to one side as a result of the strain, but declares that he is as good as five dead men yet. The man has the name of being one of the best and most reliable foreigners on the force.

—The Howard Creamery Company, have had their delivery wagon repainted. It now presents a very attractive appearance on our streets. We congratulate the Company on the success they are having since giving special attention to their Milk and Cream route. They have adopted several new ideas to insure their patrons nothing but the best that can be given them in this important household necessity. They are using a Sanitary Milk Ticket that insures perfect safety from the disease germs that may adhere to the old, dirty ones that pass from house to house. Each ticket is used but once. With the ticket system in use you also know, at all times, exactly how your account with your Milk-dealer stands, thus protecting yourself from "watered" accounts.
